Lighting the Way

VENTURE[®]
LIGHTING

Venture Lighting Institute
the first-ever institute focused on
metal halide pulse start technology.

- Opening August 2007
- 1.0 IESNA CEU available
- First course available:
"Metal Halide Technology"
- 3,200 sq. ft facility
- On-site application examples
- Two day course

AIA and NCQLP LU's to be available
soon!

Why an Institute:

Venture is the only manufacturer
dedicated to a metal halide product
line; it is our mission to educate
specifiers and customers on the
advances and advantages of metal
halide lamps and ballasts.

Venture Lighting Will:

Educate: on the benefits of metal
halide pulse start technologies
fulfilling continuing education credits

Promote: energy efficiency and
application design

Reveal: cutting-edge metal halide
products

Supply: examples and resources for
successful projects
