REPLACING THE 1000W PROBE START SYSTEM

775W Systems Advantage

Venture's Natural White® 775 watt pulse start metal halide lighting system provides longer life and significantly more light over time than today's standard probe start 1000W metal halide system. Ideal when maximum energy savings and superior performance are key concerns.

- High Definition Lighting: See Clearer, Objects look Sharper, Colors are Crisper
- 90% Lumen Maintenance (.90 LLD)
- High CRI Lighting (90+)
- The Color of Natural Sunlight (5000° K)
Colors of objects appear truer
- ANSI Type-O: Meets ANSI criteria for use in open luminaires and does not require luminaire lens, delivering more light

Applications

- Retail Auto Lots
- Highbay Industrial Lighting
- Parking Lots
- Site Lighting

Benefits

- HD Lighting™ enables you: to see **Clearer**, Objects look **Sharper**, Colors are **Crisper**
- The ultimate replacement for a standard 1000 watt probe start metal halide system!
- Save up to 240 watts per luminaire
