Let Venture Lighting help to develop a fixture/control solution for your unique application

Venture offers cost-effective control solutions varying in functionality, tailored to the needs of the application. These control solutions are compatible with many of Venture's indoor and outdoor LED fixture offering. Venture's control solutions provide individual or group control of lighting fixtures while dramatically reducing energy consumption.

Control Services

- Building layout
- Hardware recommendations / costing
- Site commissioning
- Software training
- ROI calculations

Outdoor

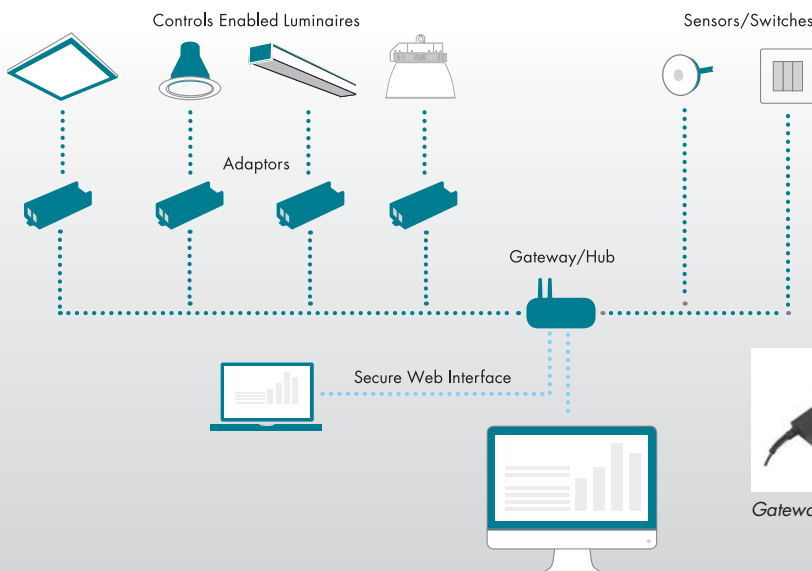

Venture's outdoor wireless control offering provides flexibility to develop light schedules for additional energy savings, to accommodate events or holidays and to improve site safety.

Indoor

Venture's indoor control offering can provide monitoring and management for indoor lighting. It gives users the freedom to commission, configure and completely control their lighting to maximize energy savings and reduce carbon emissions.
