# LED HIGHBAY LIGHTING

## VSplash Highbay

Venture Lighting's VSplash LED highbay is NSF Certified and uniquely designed for food processing applications yet maintains a high lumen efficacy. The smooth shape eliminates exposed hardware as well as prevents dust and moisture from collecting, enhancing the safety for food processing applications. The die-cast aluminum body ensures heat dissipation providing cool running operation. The fixture is IP69K rated which ensures the fixture is dust tight and also able to withstand cleaning by high pressure water jets. The IP69K rating makes cleaning worry free for NSF applications. Fixtures have a durable and corrosion-resistant powder coating finish.

### 120-277V

## VSplash

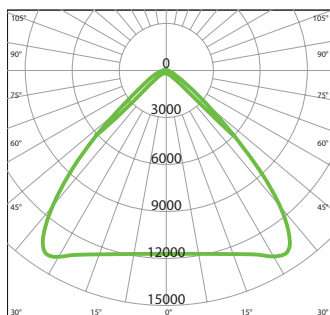

Wattage	Order Code	Lumen Output	Color Temp.	CRI	Life Hours <sup>1</sup>	Fixt. Color	Dimming Leads	Amp. Draw (A) 120V 277V	Replaces Existing HID Wattages	DLC/NSF Model Number
150W	HB45236	20250	5000K	80	230,000	Gray	External	1.21 0.56	400W	HW1-150C-AB
150W	HB41357	20250	5000K	80	230,000	Gray	Internal (capped)	1.21 0.56	400W	HW1-150C-AB

## Benefits and Features

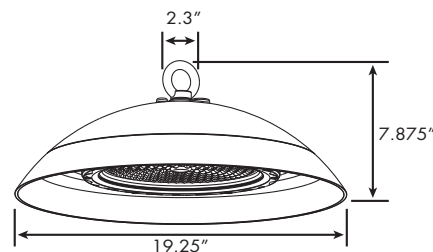

- NSF Certified
- Efficacy up to 135 lumens per watt
- Electrical: 50/60Hz, 120-277V
- No external reflectors required
- Polycarbonate lens: safe for food processing applications
- Operating temperature: -40°C up to 40°C
- Body and mounting loop are Aluminum alloy
- Stainless steel hardware
- IP69K Rating
- 5 years warranty
- CCT: 5000K
- 80 CRI
- Beam angle: 90° standard; optional 50° and 120° beam angles available
- Superior temperature stability
- Temperature tested at toughest conditions

## Photometrics

Note: \* NSF Certified for General Lighting, not for food contact

## Dimensions

## Accessories (Order as separate line items)

- ☐ LN13632 - 120° Clear plastic flat lens
- ☐ LN13492 - 120° Frosted plastic lens
- ☐ LN13421 - 120° Clear tempered glass lens
- ☐ LN28431 - 50° Clear plastic lens
- ☐ AC78126 - Pendant mount kit

Factory installed Indoor and NSF certified watertight plug options are available, see spec sheets for details
